Allow yourself to be won over by the solid lines and inviting interiors of the new cabover vehicles: 6 different models all characterised by functional appointments, innovative technology, and design solutions that will satisfy the most exacting users. Always ready to go, the Sharky cabover models invite you to discover new horizons in a young, dynamic style. Both on the road and during halts, you will appreciate the comfort and safety of a vehicle that was born to travel. This series comprises 4 low-profile models created for a young, dynamic travelling experience, living out each journey to the full, whether as a couple, with the family, or with friends. Minimal, flowing lines frame a space that is vivacious, engaging and - most importantly - functional. Setting off aboard a Sharky means entering a dimension that is versatile, lively, and naturally original.

Symbols (sharky 200S)

-  = Standard
-  = Option
-  = Not foreseen
-  = Under homologation
- *AN** = Front drive

Sharky 200 S

N.B. In case of installation of additional overhanging appendixes such as towing hook or bike-carrier, the number of homologated places may vary. Rules and requirements in each Country may involve modifications of above indicated characteristics. The number of homologated places may vary depending on the specific circulation laws of each single Country.
